

Lusterlume 17

Lusterlume 17 is a highly concentrated liquid burnishing compound used to clean and burnish brass, copper alloys, steel, stainless steel, white metal, pewter and precious metals to a lustrous mirror-like finish. It is formulated to yield excellent cleaning, burnishing and anti-tarnish characteristics.

Lusterlume 17 is normally used at a concentration of 1 to 2 fluid ounces per gallon of water. Burnishing times normally will range from 20 minutes to if 2 hours, dependent on the degree of luster desired. The Lusterlume 17 has application in both oblique open-ended burnishing barrels, wet tubs and in vibratory finishing equipment.

Features & Benefits

Highly concentrated burnishing compound	Works on brass, copper alloys, steel, white pewter to a lustrous mirror-like finish
